

FUTURACY

2021 QUARTERLY TECHNOLOGY BRIEFINGS

Today accounting firms are wading through a complex maze of technology. Associations, networks and professional groups are working hard to provide guidance and recommendations to member firms and working with trusted, knowledgeable education partners is a constant challenge. Futuracy's Quarterly Technology briefing Series helps bridge the gap. With a quarterly scheduled format, members have a set plan for technology education, knowing the ins and outs of current vendor offerings and making better decisions going forward.

OFFER TECHNOLOGY BRIEFINGS TO YOUR MEMBERS

Join CNN featured Technology Futurist and Founder the Futuracy Group, Ian Khan, in a new technology briefing series. Bringing you relevant technology updates for accounting firms, with key technology topics discussed, debunked and debated.

2021 BRIEFINGS TOPICS

- Blockchain
- Artificial Intelligence (AI)
- Robotic Process Automation (RPA)
- Automation through Technology

BRIEFING FORMAT

There are a total of four briefings scheduled, each per quarter. Briefings are scheduled for 90 minutes and have the following format

- Current Technology Landscape & Update (20 minutes)
- Quarterly Disruptive Tech Focus (30 minutes)
- Accounting Industry Use Case (15 minutes)
- Marketplace Insights - Vendor Evaluated (15 minutes)
- Looking forward - Q&A (10 minutes)

Briefings are delivered over livestream platforms which may include Zoom, Streamyard and Vimeo Pro.

AVAILABILITY

The briefing series is available at a fee, based on membership size, regional availability, live and recorded session formats.
